

DOS HITSS (AGTech Joint Venture)

Hybrid Information Technology Services for State (HITSS), a multiple-award, indefinite delivery/indefinite quantity (ID/IQ) contract vehicle, is the State Department's key source of small business IT-related services worldwide. The purpose of the HITSS contract is to meet the State Department's needs for world-class information technology support services and solutions at a reasonable price. Working in partnership with prime contractors, the State Department manages contracts through the HITSS vehicle under the small business lot to provide users a flexible means of meeting IT service needs quickly, efficiently, and cost effectively.
