

FAA BITS II (Subcontractor)

BITS II is a multiyear Information Technology and Telecommunications Services contract issued through the Federal Aviation Administration (FAA) and available to all Federal Government agencies. An indefinite delivery indefinite quantity (IDIQ) contract with fixed labor rates, BITS II currently operates with small businesses, 8(a), women-owned, and socially and economically disadvantaged businesses (SEDB) participating as BITS II contractors. Each company was chosen for its proven quality of work and competitive rates.

BITS II provides the customer the opportunity to meet all IT and telecommunications requirements in a single, performance-driven, flexible, fast, and customer-oriented contract vehicle.

Benefits

- Provides comprehensive IT and telecommunications requirements in 12 functional areas in a single, performance-driven, flexible, fast, and customer-oriented contract vehicle
- One-stop shopping and full customer support in all phases of acquisition
- 15-day turnaround on most actions
- Small Business Credit for all awards
- 1% administrative fee
